This list was compiled from our All the Nations pages <http://www.magiminiland.org/BigPicture/Nations.htm> and Book of Days pages <http://www.magiminiland.org/Days/Days.html>, plus material from Google and individual club websites. Where dates differed, we went with what the websites listed.

The basis for this list is a compilation of several hundred clubs gotten from books and magazines prior to about 1996. Most of those I had noted, for example, thusly: (p72) meaning that the earliest date I had for that example club was 1972, but it most likely was established before that year. We are in the process of going through that list line-by-line and seeing if there is a website or Facebook page for each club which gives a specific year date. Most do not, and at least half of the clubs on my list have no listing on Google at all. A listing of those approximately dated clubs will be forthcoming.

Special thanks to updates from Marty Weiser and AlainK via the Internet Bonsai Club.
